6.5.3 Support Water Conservation

SRI KRISHNA COLLEGE OF ENGINEERING AND TECHNOLOGY

An Autonomous Institution| Approved by AICTE| Affiliated to Anna University
Kuniamuthur, Coimbatore - 641008

01.10.2026

CIRCULAR

As a part of the National Service Scheme (NSS) outreach programme, the Department of Civil Engineering, Sri Krishna College of Engineering and Technology, would like to conduct the “World Environment Day Noyyal river Cleanup” on 05.06.2024 at Noyyal River. In this regard, the faculty members are requested to circulate this message among the students.

Environment Day Noyyal river Cleanup

S No	Date of Event	Name of the Event	Department Organized	Event Coordinator	Target Participants	No. of Volunteers
1	05.10.2024	Environment Day Noyyal river Cleanup	Civil Engineering	Mr. S.C. Boobalan	Civil Engineering Students	28

Cleaning up Rivers is essential for preserving these vital water bodies. Regular maintenance, including the removal of debris, pollutants, and excess aquatic vegetation, not only improves their aesthetic appeal but also offers numerous advantages. Firstly, it ensures the availability of clean, safe water for various uses, such as drinking, recreation, and wildlife habitat. Secondly, lake and pond cleanup enhances water quality, reducing the risk of harmful algal blooms and maintaining balanced ecosystems. Moreover, it promotes tourism and outdoor activities, benefiting local economies and fostering community well-being. In an era of growing environmental concerns, the restoration of lakes and ponds is a necessary step toward sustaining the health and biodiversity of our ecosystems and ensuring a higher quality of life for future generations.

Outcome of the event:

1. As part of “World Environmental day,” the Department of Civil Engineering conducted the “Environment Day Noyyal river Cleanup – Cleaning of Noyyal River” on 05.10.2024 with our college students.

2. An overwhelming response of over 30 aspiring and vibrant college students participated in the event and were motivated towards the cleanliness of water bodies.
