17.3.17 GLOBAL PARTNERSHIP FOR GOALS

17.3.17 GLOBAL PARTNERSHIP FOR GOALS

International Conference on Sustainable Innovations in Engineering and Management

The conference on **"Sustainable Innovation in Engineering and Management"** serves as a premier platform for thought leaders, industry pioneers and policymakers to convene and explore transformative solutions in the Department of Engineering and Management that aims to achieve the United Nations Sustainable Development Goals (SDGs). With a firm commitment to addressing the pressing global challenges, the conference catalyses impactful discussion and fosters collaboration that would pave the way for a more sustainable and inclusive future. The conference would feature in-depth discussion that aligns with the SDGs, focusing on critical issues such as poverty eradication, hunger alleviation, and the promotion of good health and well-being. The participants will delve into the realm of sustainable educational practices, gender equality initiatives and advancements in clean water and sanitation technologies, highlighting the pivotal role of Engineering and Management in creating lasting social impact.

The conference will spotlight the significance of renewable energy advancements and its role in driving economic growth by fostering a resilient and sustainable future. Attendees will explore the interplay between industry, innovation, and infrastructure development by emphasizing the importance of responsible and inclusive practices in reducing inequalities and

promoting sustainable growth. The discussion on Sustainable urban development strategies, importance of building resilient, eco-friendly cities and communities will also have a major play. Besides, the conference will shed light on the pivotal role of responsible consumption and production practices in mitigating climate change and preserving the delicate balance of life below water and on land. Further, it will underscore the importance of fostering peace, justice, and strong institutions, highlighting the vital role of global partnerships in achieving the SDGs.
