17.3.4 – REPORT OF SDG 4 – QUALITY EDUCATION

17.3.4 – REPORT OF SDG 4 – QUALITY EDUCATION

A key component of SDG 4 is to ensure equitable access to quality education for all. This goal will foster a sustainable and equitable world by promoting lifelong learning opportunities for all. Education is the foundation of all development and progress, and it is essential to achieving a better future for everyone. Collaboration between governments, international organizations and other stakeholders is necessary for SDG 4.

POLICY FOR SDG 4

Our Institution, SKCET, works towards the implementation of SDG 4. The vision of SKCET is “Transforming life through excellence in education and research.” The Mission of the Institution is:

- To impart the highest quality state-of-the-art technical education by providing impetus to innovation, research and development, and empowering students with entrepreneurship skills.
- To instill ethical values, imbibe a sense of social responsibility, and strive for societal well-being.
- To identify the needs of society and offer sustainable solutions through outreach programs.

At Sri Krishna College of Engineering and Technology, our core values shape the foundation of excellence. We champion Integrity, fostering a culture of honesty and accountability. Innovation is our driving force, empowering students to think creatively. Collaboration is our strength, promoting teamwork and shared success. Excellence is our benchmark, ensuring quality education and continuous improvement. These values, woven into our fabric, guide us in nurturing the next generation of leaders and innovators.

Through the National Service Scheme (NSS), the Unnat Shiksha Vikas Abhiyan (USVA) activities and the UYIR Club, the Institution extends learning beyond the classroom: educational outreach in local schools, awareness and life-skills programmes open to students and the community, and public education campaigns conducted with government agencies and NGOs. These activities are free of cost to the participants.

OTHER SDGS INTERLINKED WITH SDG 4

Quality education acts as a catalyst for the other Sustainable Development Goals. The educational activities of the Institution also contribute to the following SDGs:

SDG 1 – No Poverty: Free educational outreach and skill-building programmes improve employability and help break the cycle of poverty.

SDG 3 – Good Health and Well-being: Awareness programmes on health, hygiene, and drug and tobacco abuse educate students and the community about healthy living.

SDG 10 – Reduced Inequalities: Outreach in government schools and rural communities widens access to learning for disadvantaged groups.

SDG 11 – Sustainable Cities and Communities: Community education campaigns, such as road safety awareness with the City Police, build safer and more inclusive communities.

SDG 13 – Climate Action: Environmental awareness programmes build knowledge and capacity on climate change and sustainable practices.

SDG 17 – Partnerships for the Goals: Programmes conducted with government agencies, NGOs and local bodies strengthen partnerships for achieving SDG 4.

REPORT OF THE EVENT

Computer Literacy Program on the theme "Youth for Digital Literacy"

The Department of Computer Science and Design along with National Service Scheme has organized a computer Literacy Program for Government School Students on the theme "Youth for Digital Literacy" at Government Primary school, Narasimmapuram, Coimbatore on 7.10.2024.The objective of this Computer Literacy Program for Government School Students is to empower young minds with essential digital skills, bridging the digital divide and fostering inclusive growth. The program aims to provide students with hands-on experience in using MS Word and MS Excel to enhance their educational and personal development.

This programme is expected to yield transformative outcomes by equipping participants with foundational digital skills and fostering confidence in using technology. Students will gain practical knowledge of computer operations, internet safety, and basic word processing enabling them to enhance their academic performance and explore opportunities in a tech-driven world.
