Coursed Offered by the department

S.No.	Coursed Offered	Credits
1	Oracle Certified JAVA	1
2	Oracle Certified PHP	1
3	Embedded C	1

Course Description

Oracle Certification Course:

The Oracle Certification Program certifies candidates on skills and knowledge .Credentials are granted based on a combination of passing exams, training and performance-based assignments, depending on the level of certification. Oracle certifications are tangible benchmarks of experience and expertise that help you stand out in a crowd among employers.

Embedded C

Embedded systems. Historically, embedded C programming requires nonstandard extensions to the C language in order to support exotic features such as fixed-point arithmetic, multiple distinct memory banks, and basic I/O operations. As C combines functionality of assembly language and features of high level languages, C is treated as a ‘middle-level computer language’ or ‘high level assembly language’ C compilers are available for almost all embedded devices in use today, and there is a large pool of experienced C programmers.
