5.6.4 Childcare facilities for students

Yes. Sri Krishna College of Engineering and Technology, as an institution, has accessible childcare facilities for its students. The Girls Common Room on campus gives recent mothers a private, comfortable space to rest and care for their infants, enabling them to continue attending their courses.

Sri Krishna College of Engineering and Technology is committed to supporting student mothers so that parenthood is not a barrier to completing a degree. The institution provides free childcare facilities, accessible to students who are recent mothers, so that they can attend classes, laboratories and examinations.
