Two Days National Conference on Modernization in Engineering Science

NCMES 2K17

23rd & 24th March 2017

Organized by

**Department of Electrical
and Electronics Engineering**

in Association with

ABOUT THE INSTITUTION

Sri Krishna College of Engineering & Technology was established in the year 1998. Within a decade, the institute has marched towards the pinnacle of glory through its remarkable achievements in the field of engineering education. The college is accredited by NBA and NAAC, approved by AICTE, New Delhi and affiliated to Anna University, Chennai. It offers 7 UG and 8 PG programmes with excellent infrastructural facilities. The college has earned wide reputation for its quality of teaching and holistic approach adopted by eminent faculty towards grooming the younger generation.

ABOUT THE DEPARTMENT

The Department of Electrical and Electronics Engineering has been a pioneer in producing quality engineers with high-technical knowledge ever since it was established in the year 2001. The department offers a 4 year UG program and a 2 year PG program in Power Electronics & Drives. The department is also a recognized research centre under Anna University, Chennai. It is equipped with modern electrical machines, power electronics, control systems, electronic circuits & measurements and power system simulation laboratories.

NCMES-2K17

The Department of Electrical and Electronics Engineering is organizing the

National Conference on Modernization in Engineering Science on 23rd & 24th March 2017. The two days programme includes Paper presentation, Poster presentation, Expert talk and Panel discussion.

The objective of **NCMES2K17** is to gather scientists, researchers, academicians, industrialists and students working in the field of energy management to exchange the scientific information between them. It would also endeavor to provide a broad background and observe different dimensions of various energy management techniques.

CALL FOR PAPERS

The conference will be on the following topics but not limited to

Electrical Systems:

- Energy Auditing and Management
- Power Systems
- Power Electronics
- Control Systems
- Renewable Energy

Electronics, Instrumentation and Computing:

- VLSI and Embedded Systems
- Image Processing & Signal Processing
- MEMS and NEMS
