January 2008

*Principal's Message*

Sports and games are the means of eliminating mental stress, especially from the tension-ridden youth of today. Sports moulds the personality in the direction of punctuality, discipline, team work, self-confidence, self-motivation, prudent time management and creates a positive, progressive attitude.

Team building in colleges leads to nation building. There is no gainsaying the fact that only educational institutions can produce ace sportsmen for our country who can carve a niche in Olympics. The inherent value of sports and games is effectively inculcated to the students of our institution. Congratulations to the Department of Physical Education for launching this third Annual Newsletter and I wish the department all success in its endeavour.

*Editorial*

Earnest motivation and abundant support of the Management and the Principal give an impetus to sports activities enabling them to scale greater heights of glory every semester. "DHRONA" is launched with the motive of sharing the progress and development of sports and games of our institution with the colleagues of other institutions. This third Annual Sports Newsletter includes the special features of the achievements and activities of the college for the academic year 2006-07.

- Nominated as Selection Committee Member for the Anna University Coimbatore Zone Chess Team held at Park College of Engineering and Technology, Coimbatore.
- Nominated as Selection Committee Member for the Anna University Coimbatore Zone Volley Ball Team held at Sri Krishna College Engineering and Technology, Coimbatore.

 **Student Talk**

*Need for a  
Sporting Culture*

We all want our Indian teams to win, whatever sport it might be. We criticise very easily when they don't win. Now lets have a reality check! Let us recall our contribution towards the developments of sports in India! It is nil for most of us! In such a scenario, how can we criticize others for not performing?

Therefore, it becomes important for us to promote a sporting culture like that of Australia where a greater percentage of students take up sports seriously, thereby making their country very successful. Sports also brings in discipline, good health and competitiveness into one's character.

We shall all thereby make sure that we allot some time for sports at this young age and help building a healthy and competitive India!

**Vishal Tewari**  
IV BE EEE  
Sports Secretary

**PHYSICAL  
EDUCATION &  
HEALTH**

Physical Education is not only about playing and winning. It also emphasises on keeping oneself fit and healthy. A person's health is his most prized possession. In fact, we all know the truth of the maxim 'Health is Wealth'.

Hence, there is a great need to create awareness about maintaining good health from young age. This should be the mission behind the Physical Education departments of all colleges. Exercising also reduces stress caused by academic pressure.

It is high time we realize the importance of keeping fit. To achieve this goal colleges should play a major role. Let SKCET lead the way...
