

Creative writing is an art of making things up!

The **English Literary Club** of the **Science and Humanities** department conducted a **Creative Writing contest** as an extended hour activity. The objective of the activity was to inculcate writing skills with plot development, dialogue, figures of speech and emotional appeal into the young minds.

The **English Literary Club** of **SHA** conducted an all new **Lyric Writing** Competition entitled **The Unsigned Artist**. The first year students participated with lot of enthusiasm and the budding poets beautified the lyrics of motivational songs in their own style and showcased their talents.
