MECH | FORMULA KART DESIGN CHALLENGE

Team **Gepard Racing** comprising of 27 students of SAE INDIA SKCET Collegiate Club from the Department of **Mechanical Engineering** has secured four awards in the National Level "Formula Kart Design Challenge (FKDC 2023)" organized by the Fraternity of Mechanical and Automotive Engineers(FMAE) from 29.10.2023 to 02.11.2023. The static events was held at Kumaraguru College of Technology and the final event was held at Kari Motor Speedway Racetrack, Coimbatore. The team was mentored by **Dr. R. Soundararajan**, Professor and **Mr. A. Sathish Kumar**, Assistant Professor, Mechanical Engineering.

The team secured Overall Runner up in

1. Endurance and Fuel Economy
2. Acceleration test
3. Design and CAE presentation and
4. Cost presentation

MECH | FORMULA KART DESIGN CHALLENGE

1. Ajay Karthikeyan V, IV MECH	15. Nishanth A C, III MECH
2. Mahi Kaarthik G, IV MECH	16. Vinothan M, III MECH

CIVIL | GREEN DIWALI CELEBRATION

Civil Engineering students of SKCET celebrated Green Diwali with tribal school children at Govt. Middle School, Kondanur. The event was organised by **Social Club - Eagai and Eco - Green Club - Mannvaasam**. 40 students and faculty members conducted various events in the school. Awareness sessions on **air pollution, waste management, plastic pollution, tree plantation drives and games** were conducted for students. The event witnessed a celebration without bursting crackers and encouraged the students to avoid crackers and protect the environment by reducing pollution and safeguarding birds and animals in the forest regions. Prizes and sweets were distributed to the winners of each event. Nearly 80 students from 1st STD to 8th STD participated in the event.

Department of **Electronics and Communication Engineering** organized a Seminar and Hands-on session on **“PCB Designing with Reverse Engineering”** by Pumo Technovation, Coimbatore on 03.11.2023. Resource person of the day **Mr. Balamurugan T S**, Senior Project Manager Pumo Technovation, Coimbatore addressed the students. Increasing Demands and challenges in Reverse Engineering, New trends in PCB layout simulation and design, Career Opportunities in Reverse Engineering and Hands-on training on PCB design tool – Altium were the highlights of the session.

ECE | WORKSHOP ON INTRODUCTION TO UNIVERSAL ROBO LEAGUE

Department of **Electronics and Communication Engineering** organized a Workshop on "**Introduction to Universal Robo League**" powered by Robomatic, Coimbatore on 03.11.2023

The chief guest of the day **Mr. Celestine**, Robomatic Pvt Ltd, Coimbatore addressed the students. Emerging Technologies in Digital World, Societal Impact of Robots, Robotics with AI and ML, Human Robot Interaction and Collaborative Robots (CoBots) were the highlights of the session.

EEE | RECREATION CLUB ACTIVITY

Department of **EEE - Recreation Club** organized a series of events - **“Brainy Bowl, Blow the Ball and Pickup drop balloon challenge”** on 27.10.23 for the Second year students to revive and rejuvenate. The students enthusiastically participated and experienced the ecstasy in great zeal.

MECH | VALUE ADDED PROGRAM ON ADDITIVE MANUFACTURING

Department of **Mechanical Engineering** in association with **Marvel Additive System**, Coimbatore organized a value added course on ‘**Mastering Additive Manufacturing : A Practical Design Approach**’ from 27.10.2023 to 04.11.2023. **Mr. R.S.T.Harinishok**, Founder & Chief Operating Officer, Marvel Additive System, Coimbatore was the Resource Person of the session. **Dr. R. Soundararajan** and **Mr. N. Babu**, faculty members of Mechanical Engineering coordinated the event.

The session concentrated on:

- Overview of AM and their applications in aerospace and defence sector.
- Design & Slicing of Critical components
- Part Design using Solidworks
- Hands on training on 3D printing
- Design and develop critical parts using 3D printing
- Industrial Visit & Interaction

S&H | EXTENDED HOUR ACTIVITY

Fitness Club of **SHA** conducted **Arm Wrestling** for the **First** year students on 3.11.2023. The event aimed to promote physical fitness, camaraderie and sportsmanship among the students.

MECH | WORKSHOP ON SOCIO - TECHNICAL CYBER SECURITY AND RESILIENCE IN IOT

Society of Automation and Robotics Club of the Department of **Mechanical Engineering** conducted an enriching workshop on the title '**Introduction to Socio-technical cyber security and Resilience in IoT**' on 07.11.2023. **Mr. Arun Balaji**, CEO, Yoi Robotics Laboratory and **Dr. Abdul Wahab Johny**, Research Coordinator, AICRA were the resource person of the event. **Second** year students from the Department of **Mechanical Engineering** attended the workshop. The session enlightened the students with the basic ideas of Robotics, Home Automation, Technosium Event and Start-up Methodology.

S&H | EXTENDED HOUR ACTIVITY

Extramural Club of SHA conducted a **Singing Competition - Music on Mosaic** for the **First-year** students on 03.11.2023. The event aimed to provide a platform for budding musicians to display their vocal prowess and featured a wide array of musical genres, including classical, pop, and fusion, showcasing the diverse musical tastes and abilities of the students. It also promoted a sense of unity among the students.

EEE | TESTIMONIAL BY PLACED STUDENTS

My journey at SKCET has been nothing short of transformative. The education and unwavering support I received there positioned me for a remarkable career at Mu Sigma Pvt Ltd. Thanks to the institution's dedication to excellence, I secured a coveted position at Mu Sigma Pvt Ltd even before graduating.

The practical experience and extensive networking opportunities facilitated by the SKCET were pivotal in my professional growth. I take immense pride in being an alumnus of SKCET and firmly believe it's the perfect launchpad for anyone aiming to thrive in a company like Mu Sigma Pvt Ltd.

I can say that SKCET has been the best part of my life and I admire the support and dedication I received from the management and my EEE department. I genuinely thank my tutors **Mr. S. Karthikeyan** and **Ms. C. Pavithra**, Coordinator, **Dr. J. Karthika**, my HOD **Dr. K.C. Ramya**, my professors and all my friends for their immense support and making my college life a happy memory.

Mechanical, Drop Load Impact and Fatigue Properties of Silane-treated Chitosan and Waste Leather and Areca Fibre Epoxy Composite

P. Surianarayanan¹ · N. Balaji² · K. Balasubramanian²

Received: 21 December 2022 / Accepted: 5 October 2023
© The Author(s), under exclusive licence to Springer Nature B.V. 2023

Abstract
The major objective was to study how adding silane-treated CCP and a hybrid blend of fiber and leather would improve the epoxy biocomposite's mechanical and ballistic resistance. Fiber and tanned leather were treated with silane and composites were made via the hand layup method. The fibre and leather was laid by two different sequence and the composites were cured at elevated temperature. Results revealed that the Areca/Leather/Areca (ALLA) stacking sequence of 1.0 vol. % of CCP significantly improved the composite's mechanical properties. The low-velocity impact capability was significantly increased by the hybridization of fiber and leather, reaching 11.8 J for untreated reinforcements and 12.44 J for reinforcements treated with 1.0 vol.% of CCP. Similarly, the maximal fatigue life count of 36,131 was achieved by adding 1.0 vol. % of CCP to the ALLA sequenced composite. The research indicates that the best outcomes are achieved by using hybrid layup configuration of Areca/Leather/Areca and silane-treated 1.0 vol.% CCP. These composites with increased ballistic resistance and toughness could have potential utility in domains such as automotive industries, defense and structural, where high toughness is required.

Keywords PMC · Fibre · Leather · Filler · Impact damage · Fatigue

Dr.N.Balaji and Dr.K.Balasubramanian, Professors, MECH have published a scientific article entitled **“Mechanical, Drop Load Impact and Fatigue Properties of Silane-treated and Waste Leather and Areca Fibre Epoxy Composite”** in Silicon – A Springer Publication. It is a SCI, WoS and Scopus Indexed Journal with an Impact Factor 3.4. The Journal is also listed in Anna University Annexure 1.

R&D | GRANT OF DESIGN PATENT | MECH

Dr.K.P.Yuvaraj, Associate Professor, MECH has been Granted an International Design Patent titled **“Smart pulse oximeter with data storage and wireless access”** by Intellectual Property Office, United Kingdom.

Certificate of Registration for a UK Design

Design number: 6318072
Grant date: 17 October 2023
Registration date: 10 October 2023

This is to certify that,
In pursuance of and subject to the provision of Registered Designs Act 1949, the design of which a representation or specimen is attached, had been registered as of the date of registration shown above in the name of

Dr. Prasad Selladurai, Dr. Puri Elgaiyan, Dr. Ramasamy Vidhyavathi, Dr. Jesudass Joseph Sahayarayan, Sathiya Ayyadurai, Dr. Dharani Krishnaswamy
Gopalakrishnan, Dr. Yuvaraj Kunnathur Periyasamy, Dr. Keyur Kumar Patel

In respect of the application of such design to:

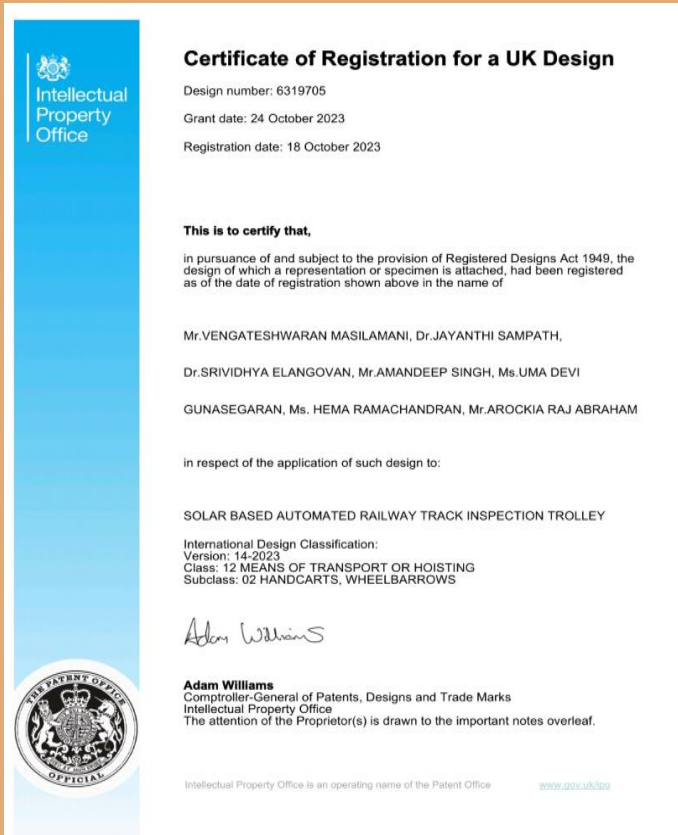

Smart pulse oximeter with data storage and wireless access

International Design Classification:
Version: 14-2023
Class: 24 MEDICAL AND LABORATORY EQUIPMENT
Subclass: 01 APPARATUS AND EQUIPMENT FOR DOCTORS, HOSPITALS AND LABORATORIES

An Optimized Bagging Learning with Ensemble Feature Selection Method for URL Phishing Detection

Borni Pomranzany & Prabha Dhondayudem

Journal of Electrical Engineering & Technology (2023) | Cite this article

8 Accesses Metrics

Abstract

This study proposes and implements an ensemble feature selection with a bagging classifier for URL phishing detection. Feature Selection is essential for reducing data's dimensionality and improving any proposed framework's performance. The feature selection stability is improved by using the ensemble feature selection method. In this work, Aggregation decides the final ranking of the ensemble feature selection by using four standard filter methods. Bagging classifier used for URL phishing dataset and accuracy of the model is determined with aggregation ranked features. In proposed work details the ensemble feature selection methods that embed with optimized ensemble bagging learning. The hyperparameter of the bagging classifier, such as multiple estimators with random patches, random subspaces, bagging, or bootstrap aggregation and pasting, are tuned, which produces the better performance model. The evaluation and comparison of experimental results showed the effectiveness of our
