ECE | KURUKSHETRA 2022

Second year ECE students have participated in various events in Kurukshetra 2022 organized by Anna University CEG campus. The details of the event wise participation are as follows:

Name of Event	Number of students participated
Workshop on Blockchain	07
Workshop on Drone Design	10
Workshop on Hand Gesture Robotics	30
Workshop on Stock market Analysis and Creative thinking	02
Project Expo	02

MCT | WORKSHOP ON 3D PRINTING & SOLIDWORKS

H.S.Kishoor, student of **Second** year **MCT** has attended a workshop on “**3D printing and solid works**” organized by Kongu Engineering College on 07.04.2022.

MCT | WORKSHOP ON TECHNOLOGY ENHANCEMENT IN FORD ECOSPORT VEHICLE

H.S.Kishoor, student of **Second** year **MCT** has attended a one day workshop on “**Technology Enhancement in Ford Ecosport Vehicle (US Export Model)**” organized by the Department of Automobile Engineering, Hindustan College of Engineering and Technology on 09.04.2022.

STUDENT PROGRESSION

CSE | HIGHER STUDIES @ TOP TIER UNIVERSITIES

THE GRADUATE SCHOOL

April 16, 2022

Adithya Menon Saril
36A1, College Road
Coonoor, Tamil Nadu 643102
India

Dear Adithya,

It is with a great sense of pride that I welcome you to the University of Maryland's Graduate School. The university is committed to offering programs that combine rigorous academic and technical preparation in a nurturing, diverse, and engaging environment. Our graduate programs are designed to prepare graduates for a wide range of opportunities in local, national, and international settings.

I am pleased to offer you admission to the Master of Engineering program in Cybersecurity - Professional for Fall 2022. This admission comes with the condition that you complete an [Advanced English Writing Course](#) during your second semester of study. You may submit a new test score to determine if your English course placement can be changed. The deadline for submitting a new test score is November 30, 2022. Test scores received by the Graduate School after that date will not be considered.

Your tuition and charge-differential classification: Out-of-State.

Your condition(s) of enrollment:

- Completion of the Advanced English Writing Course during the second semester of study.
- Submission of final official baccalaureate transcript(s) from all previous institutions by the end of the first semester of study.

Each required transcript (except from the University of Maryland College Park) must show the date and conferral of the awarded degree. If your transcript does not state that a degree was granted, an attested copy of your diploma/degree certificate is required. Future registration will not be possible without the receipt of these documents.

Official electronic transcripts may be sent directly from your institution to the following email address: gradschool@umd.edu. Otherwise, you may mail your official unopened/waxed transcript to the following address:

University of Maryland
Enrollment Service Operations
ATTN: Transcript for Graduate Admission
Room 3125 Mitchell Building
College Park, Maryland 20742, USA.

Please follow each step in the [Checklist for New Students](#) to prepare you for your first semester at the University of Maryland. All full-time graduate students are required to have health insurance. If you will not be covered under someone else's plan (a parent or spouse), please explore your [health insurance options](#) before the term starts. If you believe that the tuition and charge-differential classification is incorrect, please contact the Residency Classification Office (resclass@umd.edu).

It is important to accept or decline this admission offer. Your University ID (UID) is 119341452. You will need this number for registration and other administrative purposes. The [International Student and Scholar Services](#) office will contact you directly regarding the visa process.

Again, we welcome you to the University of Maryland, with our best wishes for a successful and rewarding graduate experience.

CSE | INAUGURATION OF CRYOSAT - CSE ASSOCIATION

CRYOSAT, CSE Association was inaugurated by our Principal Madam **Dr.J.Janet** on 21.04.2022 at BS-03 hall. The chief guest of this event was **Mr .Akshay V, Founder, Ed Zola, Coimbatore**. He motivated the students through his inspiring words "The way towards the success is not with the skills that we are born with but with the skills we develop through".

Highlights of the Event:

- ❖ Launch of CRYOSAT
- ❖ Release of the magazine- CRYOFFEED - first edition
- ❖ Introduction of CSE Students office bearers. The crew members presented their roles on the stage.

AI&DS | CAMPUS CONNECT PROGRAMME

Department of **Artificial Intelligence and Data Science** organized a Campus Connect Seminar on “**How to Process and Work on Data**” for SKCET Center of Excellence Deep Vision students. Session was handled by **Dr.A.Sajeev Ram**, Associate Professor, **AI&DS** on 07.04.2022. The pointers of discussion were: Process of Data, How data patterns are useful, Types of data science, Data Science life cycle, AI vs ML vs Data Science.

AI & DS | CAMPUS CONNECT PROGRAMME

Department of **Artificial Intelligence and Data Science** organized a Campus Connect Seminar on **“Taking First Steps towards Machine Learning”** for SKCET Center of Excellence Deep Vision students. Session was handled by **Dr.T.Sujatha**, Associate Professor, **AI& DS** on 11.04.2022. The pointers of discussion were: Understanding of Traditional Programming and Machine Learning, Role of Machine Learning in Research Applications, Learning Methods, Machine Learning Algorithms, Importance of Data quality, Real Time Examples and Working with Dataset.

PLACEMENT & TRAINING

SKCET | TESTIMONIAL BY PLACED STUDENTS

I am fortunate to be a part of SKCET where I was able to grow. The entire faculty members and department leaves no stone unturned to shape one's future. My four years at SKCET have been a wonderful experience of learning with prolific exposure. My Huge respect and love towards the entire faculty members and the department is always special. It was their efforts that made me to count myself into a better professional. SKCET contributed a lot to the development of my personality. Our placement team guided and encouraged us at each and every step thereby helping me secure my placement in a reputed company.

SREE KRISHNA SUDHAN G N -MECH(2021 Batch),

My journey with SKCET is definitely one I will cherish for life. In a very short span of time, I was able to learn a lot, which helped me excel academically as well as personally. SKCET aims at overall development of an individual and also provides multiple opportunities and exposure to develop new skills. Students are able to showcase their talent not just through technical but also through extra-curricular activities. The competitive environment always pushed me to perform my best. The placement preparedness training was proved to us from the beginning of the 3rd Semester and it went on till the end of the 6th semester. The feeling of being employed upon graduating is immense and a morale boosting experience. I extend my gratitude to our Placement cell. I am very much grateful to my parents for choosing SKCET. Thanks to our Principal Madam and entire SKCET faculty team.

I am a proud SKCETian. It is a great pleasure for me to be a part of SKCET family, to explore and enjoy its immense resources. The Placement Team of SKCET has brought plenty of companies to our campus even in this pandemic situation. I take this chance to show my sincere gratitude to all my department faculty members and placement trainers. The training provided by the placement team, boosted my cognitive skills and interpersonal skills and it's the key reason for me to clear my interviews. It's been a wonderful journey of four years and I would like to thank the management and all the faculty members for encouraging me to think globally and help my wings to take off!

Abstract: Concentric tube heat exchangers are used for multitude of applications ranging from heat transfer for low end applications to coolants in space vehicles. Typical heat exchange equations are sufficient to solve problems related to finite temperature difference. However, scientific solutions require complex calculations that consider losses and various heat dissipations to give accurate results. Mathematical and analytical methods of counter flow heat exchanger is carried out in this study. Emersion of heat exchange during counter flow is facilitated by incorporating Runge-Kutta Method. Comparison between the two analysis methods is carried out for two conditions making use of NTU approach. During one of the conditions the input values were maintained as same, during the second condition, the input values were varied. The Runge-Kutta Method gave accurate results for both the conditions.

Keywords: Concentric tube heat exchanger, Mathematical method, Analytical method, NTU approach, Runge-Kutta method.
