12. Significant contributions made by IQAC during the current year(maximum five bullets)

UGC renewed the autonomous status of the Institution during the year 2018.

The College has been chosen as a nodal centre for conducting Smart India Hackathon (SIH) for three consecutive years and four teams from our college have won 1st prize in SIH 2019 Software Version.

Secured 97th Rank among Engineering Institutions in NIRF Ranking 2019.

Established Institutional Innovation Council of MHRD at campus and participated in ARIIA ranking 2019. The college is one among the top 100 Institutions to receive participation certificate.

SKCET is ranked 11th and 26th in the all India SWAYAM NPTEL exams conducted during odd and even semester of the academic year 2018 _ 2019.

13. Plan of action chalked out by the IQAC in the beginning of the academic year towards Quality Enhancement and outcome achieved by the end of the academic year

Plan of Action	Achievements/Outcomes
Promoting industry based curriculum and courses.	Two new programmes viz, B.Tech. - Computer Science and Business Systems in association with Tata Consultancy Services Ltd. and M.Tech Computer Science and Engineering in association with Virtusa Corporation Ltd. are launched in the college. New courses suggested by Industries are introduced in the regulations R2018 and R2019 curriculum and syllabus. Some of the courses newly introduced are Industry4.0, Cloud Visualization, Data Analytics, Block Chain Technology, Cyber Security, Artificial Intelligence, Deep Learning, IoT, Machine Learning and Python Programming.
Conducting National Level Hackathons and project contests.	Students are encouraged to participate in National Level Hackathons like Smart India Hackathon and improve their problem solving ability. During the SIH 2019 four teams from SKCET won 1st prize with cash awards worth Rs. 3.75 Lakhs. The college also hosted the pan India problem solving event Smart India Hackathon - Software version, initiated by MHRD and AICTE, during the years 2017, 2018 and 2019. Our Institution is one among the 50 nodal centres for hosting this mega event. More than 250 students from across India participated in this event and solved the problems for 36 hours continuously.
Promoting the culture of innovation among the students through innovation council of MHRD.	Institute Innovation Council (IIC) of Sri Krishna College of Engineering and Technology was established to systematically foster the culture of Innovation among the students across various departments inside the Institute. Institution Innovation Council has organized periodic workshops such as IPR for students and faculty members, seminars/ interactions with the industry experts and proof of concept competitions. IIC also takes part in the live sessions such as India First Leadership Talk Series and webinar on Intellectual Property Rights. IIC student members and faculty members of various departments from our institution attended the session. IIC also organizes Hackathons, idea competition, proof of concept competitions with the involvement of industries. MHRD bestowed four golden

	stars to the IIC of SKCET recognising its efforts in promoting the innovation culture. The college participated in ARIIA 2019 ranking for innovation and received participation certificate from MHRD.
Encouraging all faculty members to pursue NPTEL/MOOC courses.	Faculty are motivated to view NPTEL videos and to take up online courses. SKCET is ranked 11th and 26th in the all India NPTEL exams conducted during odd and even semester of the academic year 2018-2019. Faculty members also completed certification courses from online platforms like edX and Coursera.
Motivating faculty to publish papers in Scopus/Web of Science journals and reviewing their performance periodically.	Faculty members are encouraged to publish papers in Scopus, Web of Science and referred International Journals. The total publication counts stands at 496 with 205 Scopus and 70 web of science publications. The publication count is expected to rise in the current year as all faculty members are constantly working to publish quality research articles and rigorous training pertaining to technical writing is being provided to them. Star faculty awards have been awarded for faculty members every month to recognise their innovative teaching practices, contribution towards research and development, publication in Web of Science/Scopus indexed journals. Faculty publishing quality research articles and exceeding the benchmarks set are honoured with financial incentives during the college day.

17. Does the Institution have Management Information System ?	Yes
If yes, give a brief description and a list of modules currently operational (maximum 500 words)	<p>The college has a full fledged Management Information System. The Insproplus Palpap software is used for major academic and administrative activities like students database management, admissions, transport, leave application, library transactions, HR functions and hostel transactions. Both web portal and mobile app are used for the processing of data. Individual student login and staff login are provided for assessing data easily. The following academic features are available in the ERP module.</p> <ul style="list-style-type: none"> • Students database management. • Semester information including courses, time table, lesson plan/syllabus, faculty allotment and electivewise student allotment. • Attendance tracking and management of the students is another important feature in the ERP software. Parents receive message when their ward's are not present inside the campus. • Performance analysis of the students based on their continuous assessment marks. The software has a separate module for managing the admission details of the students. The complete database of students is uploaded even during the time of admission. Student Bonafide Certificates, Transfer Certificates and Course Completion Certificates are generated through ERP software. The HR module of the software manages the complete database of staff members. The staff attendance is generated on day to day basis based on the bio metric report. The staff members can also apply for leave through the ERP module. The software has provisions for managing Library book transactions by staff and students. A separate module for hostel and transport management is also available in the software. The software is used for hostel room allotment and hostel attendance management. Scheduling the bus routes shall also be

done using the software. Auto backup features are available for the software and backup is taken on daytoday basis.

1.4 – Feedback System

1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	Yes

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution?
(maximum 500 words)

Feedback Obtained

Sri Krishna College of Engineering and Technology is one of the most sought after Institutions for offering higher standards of technical knowledge to student fraternity. Established in 1998, the Institution has marched towards the pinnacle of glory through its remarkable achievements in the field of Engineering Education. It is an autonomous Institution, accredited with 'A' Grade (3.42 CGPA out of 4 scale) by NAAC and its programs have been reaccredited by NBA for its academic excellence. In order to strengthen the functioning of the system, valuable comments and suggestions are received from various stake holders like industry experts, alumni and outstanding academicians to upgrade the curriculum and syllabi on a continuous basis. The suggestions received are incorporated for improving the teaching learning process. Feedback received from the students and their parents are also given due consideration in effecting the required changes. 360 degree feedback is collected through the following modes for monitoring and improving the teaching learning process. Student feedback is obtained through online mode to assess their opinion on the teaching standards, adequacy of academic infrastructure and updating the employability skills. Class committee discussions, where student representatives discuss their issues with the faculty members and one to one student discussions with HoD and Principal are carried out for understanding the academic and nonacademic issues of students. Remedial actions are initiated immediately based on the merits of the issue. The academic programme are designed in alignment with the vision and mission of the Institution, duly incorporating the suggestions and recommendations received from the stake holders. Apart from obtaining and incorporating the suggestions and recommendations from the stakeholders on a continuous basis, the formalized interactions taking place in the Board of Studies, Academic Council and Governing Body meetings also pave way for updating the curriculum, syllabi and pedagogy. The Board of Studies and Academic Council have representatives from the industry and alumni, apart from academic experts. These forums provide

ample opportunities for effective deliberations in designing the academic programme and in updating the curriculum and the syllabi. The modifications that have been incorporated consequent to the feedback from the stakeholders are highlighted: • Choice Based Credit System (CBCS) was introduced in the academic year 2015_2016, which has made the Curriculum interdisciplinary, permitting the students to choose the courses of study as per their choice, thus providing them with both vertical and horizontal mobility of learning courses of multiple disciplines. • Higher weightage has been assigned to Continuous Internal Assessment components, as is the case with most higher education Institutions in the country and abroad. Presently, Continuous Internal Assessment is assigned equal weight as End Semester External Assessment for most of the courses. • 21 days of Internship has been made mandatory along with credits. • Eighth semester has been earmarked for industry internships. • Mini project has been included in the curriculum to provide the students with practical learning exposure. • Value added courses have been identified and students are encouraged to pursue such courses on contemporary/emerging areas.

CRITERION II – TEACHING- LEARNING AND EVALUATION

2.2 – Catering to Student Diversity

2.2.1 – Student - Full time teacher ratio (current year data)

Year	Number of students enrolled in the institution (UG)	Number of students enrolled in the institution (PG)	Number of fulltime teachers available in the institution teaching only UG courses	Number of fulltime teachers available in the institution teaching only PG courses	Number of teachers teaching both UG and PG courses
2018	4610	363	310	28	23

2.3 – Teaching - Learning Process

2.3.1 – Percentage of teachers using ICT for effective teaching with Learning Management Systems (LMS), E-learning resources etc. (current year data)

Number of Teachers on Roll	Number of teachers using ICT (LMS, e-Resources)	ICT Tools and resources available	Number of ICT enabled Classrooms	Number of smart classrooms	E-resources and techniques used
361	361	361	115	115	361

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

The college assesses the future aspirations of the students and their learning levels immediately after admission process and categorizes them as coders, core aspirants, entrepreneurs and those opting for higher studies. This helps to design and deliver the customized and focused training based on their career choice. Review conducted by expert faculty mentors in the fundamentals of mathematics, physics, chemistry and the communication skills would help the faculty to learn and understand about the students. A tutor is assigned to every 15 students and they are introduced on the Orientation Day itself. During orientation program parents get familiarized with the department faculty members, rules and regulations of the college and facilities available in the campus.

Tutorward meetings are conducted every week and the tutors interact with the students on day to day basis in person and through a separate social media group. A separate social media group also exists for parents, where all the class tutors are members of the group. The progress of the wards is updated to parents every now and then. Academic review meeting (Parents meeting) is convened on Sundays, twice a semester, to discuss about the progress of the students with their parents. Special training programmes are planned for slow learners based on their academic performance. Lateral entry students are admitted to the second year directly after their diploma from polytechnic colleges. Though they are good in the courses related to their trade, their communication and mathematical skills need to be supplemented. Hence special communication classes are arranged. Bridge courses are conducted in mathematics as well as the tough subjects in parent department.

Counselling and mentoring sessions are being conducted in a cordial manner to help the students overcome their psychological problems, relieve their stress and fear, in order to help them achieve their goals successfully. Snap talk, which is aimed to improve the communication and public speaking skills, is mandatory for all students. Poor performance, frequent absenteeism would be watched, mentored and then intimated to parents through SMS and letters. All the students are motivated to participate in technical contests and hackathons. Departments insist on mandatory student internships at eminent Industries and Research Institutes. Students are encouraged to write research articles and file patents along with the faculty mentors. Organising technical symposium, cultural events and sports meet helps to build self confidence among the students and brings in the team spirit. Thus the students are mentored to improve their academic performance and attain their career goals.

4.4.2 – Procedures and policies for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc. (maximum 500 words) (information to be available in institutional Website)

Overall Infrastructure Management: The Institution has an Administrative Officer who oversees the maintenance of the buildings, class rooms and laboratories. A Team lead by the Maintenance Engineer (Civil) supports the Administrative Officer in the overall maintenance of the campus. Painting of the walls is done once in three years and also on requirement basis. The Maintenance Engineer(Civil) goes around the campus regularly, identify and sort out problems with the help of concerned people then and there for minor issues. Repair and Maintenance activities are carried out regularly. Stock verification of assets is done annually and worn out equipments/components/machines are repaired/replaced. Wherever necessary the college has entered into AMC with various companies for maintaining the equipment and infrastructural facilities. The respective departments are made responsible for maintenance of equipments and renewal of AMC. The equipments which are not under AMC are serviced based on the request submitted by the concerned HOD, with the help of the company which has supplied the item or with the help of competent technicians/ engineers. **Electrical Maintenance:** A separate Electrical Maintenance team headed by an electrical supervisor exists in the campus. Electrical maintenance covers all aspects of testing, monitoring, fixing and replacement of electrical component/system. The maintenance is carried out by an accredited electrical engineer who has knowledge about the National electric Code and native regulations. **Laboratory Maintenance:** The laboratories are under the control of the respective HoDs. Each lab has a lab incharge and a lab technician. Stock registers and maintenance registers are maintained in laboratories and are audited annually. Faults identified by the lab incharge / lab technicians are

rectified by trained technicians after obtaining approval from the HoD / Principal. Smart Board and System Maintenance: All class rooms are equipped with smart boards and a team of technicians ensure that the boards are working flawlessly. A Professor in charge for smart board, with the competent technical team, is responsible for servicing the smart boards annually. IT Infrastructure Maintenance: System Maintenance team comprising of overall Campus System Manager, System Administrator and a strong technical team maintain the systems in the campus. The periodical maintenance work is being followed as per the schedule. In addition to this, back up of data and Hard disk cleanup and defragmentation utilities are done regularly. Scrap systems are disposed off through buyback systems. Library Maintenance: The college Library is headed by the Librarian Dr. Fazlur Rehman .The library resources are maintained by the library team. • Library follows the Government norms for weeding out the worn out books • Stock verification of the library books is done annually. Sports complex: The Physical Director is incharge of the sports complex and gymnasiums inside the campus. The playground courts are kept tidy and maintained in a Fit for use condition always. Worn out sports items are replaced annually. The overall maintenance of the Gym equipments and sports items is the responsibility of the sports department.

5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

The Students of SKCET are adequately represented in various forums and they are empowered to organize events and display their leadership skills. Some of the forums where students play an active role are as follows. Students Council: Students council is a body which represents students of all departments and coordinated by two senior faculty members. Principal discusses the academic issues with the council members twice a semester and recommends corrective

actions based on the suggestions and feedback. Class Committee Meeting: The class committee comprises of students representing various categories like the fast learners, slow learners, class handling faculty and tutors. The HoD and the Principal may also attend the meeting. The meeting is convened twice a semester to discuss the academic progress of the students and improvement required in the teaching learning practices. Program Advisory Committee: The programme advisory committee (PAC) discusses about curriculum revision, framing the program outcomes (POs), program specific outcomes (PSOs) and program educational objectives (PEOs). Senior faculty members, industry and academic experts, students and alumni are members of PAC. The suggestions from students pertaining to curriculum and syllabus are implemented through this committee. Clubs and Associations: Students are adequately empowered through the various clubs and associations that exist in the Institution. The Society of Automotive Engineers (SAE) Club, Institution of Indian Foundrymen (IIF) Chapter, Energy Club, Coimbatore Productivity Council (CPC), Society of Automation and Robotics (SAR), Innovation and Entrepreneurship Development Centre (IEDC), Mozilla campus club, Google crowd source team, IEEE Robotics and Automation Society, Energy Audit Cell, Technical Club, Humor Club, Westibule English Club, Tamil Mandram, Eco Green Club "Manvasam" and Social Club "Eagai" are some of the vibrant clubs and chapters that enhance the skills of the students. In addition to the above, all the departments have a vibrant Association headed by a Student Secretary and the members of the Association are also students. A faculty incharge will guide the Association. The Association invites industry experts and organizes guest lectures in the upcoming domains. Group discussions, symposiums and workshops are also organized by the Association. Some of the prominent events organized by the students are, DHWANI - A Cultural Fete and Kenzo A National Level Symposium. Students participated in several Hackathons and International / National level contests and have won prizes and internship offers from organizations like Google, Cloud bull and BITS Pilani. Dedicated mentor teams work towards enabling students to participate in MyGov challenges AICTE ChhatraVishwakarma Awards to display innovative solution towards empowerment of villages through technologies, DSTTexas India Innovation Challenge Design Contest, Logo designing competitions for MHRD, tagline contests, Innovate India and various challenges posed for railways and disaster management. All the students are guided to participate in Smart India Hackathon (SIH) in order to improve their coding skills and face challenges to build innovation models. Mentored teams have won First prizes worth 3.75 Lakhs (4 teams) at SIH 2019 and Deloitte Innovation Award of 3 Lakhs during SIH 2017 and Persistent Systems Inspiration Award at SIH 2018.

5.4 – Alumni Engagement

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

The Institution follows a decentralized and participative management style in decision making. Curriculum restructuring, implementation of new regulations and syllabus, implementation of new academic and administrative strategies, admission procedure, budget allocation to departments, purchase of equipment and consumables, initiating new programmes, start of new research centres, implementation of E-governance are few aspects involving decentralized decision making. The Head of the Institution in consultation with the Dean/Heads of the Department plans the budget and activities for the year. The HoDs will propose the budget and activities for the year after consulting with the department faculty members. The plan is brainstormed in the HoDs meeting and the same is approved by the Chairperson and Managing Trustee of the Sri Krishna Institutions (who is Chairman of Governing body) after an elaborate presentation session by the Principal in the presence of HoDs. The HoDs will ensure the successful implementation of the activity plan, which is monitored by the Head of the Institution and top management. All the strategies framed by the Institution are achieved after brainstorming and thorough deliberations. Introducing new industry linked programmes like the TCS powered B.Tech Computer Science and Business Systems (CSBS) and Virtusa supported M.Tech Computer Science and Engineering (CSE) are important decisions taken by the Chairperson and Managing Trustee after several brainstorming meetings with the Principal, Head of the Departments, faculty members and regulatory bodies. The implementation and progress are monitored and corrective actions are implemented based on the suggestions from the statutory bodies.

6.1.2 – Does the institution have a Management Information System (MIS)?

Yes

6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Library, ICT and Physical Infrastructure / Instrumentation	The Vankatram Learning Centre (The Central Library) serves the students, faculty and researchers, with its well managed information resources housed in 3 floors. The library has an assortment of 78621 (as on July 2019) volumes of books on various subjects. A number of them are rare and valuable. Meticulous care is taken to develop resources for numerous disciplines and majority of the books are authored by international authors. The Library subscribes to 7000 national and international magazines

and journals through print and digital modes. The library subscribes publications of acknowledged international societies like IEEE, ASME, ASCE, EBSCO, National Digital Library and DELNET. The Library also subscribes to SCOPUS and WEB OF SCIENCE bibliographic databases to support the researchers, UG/PG students and research scholars. On a regular usage basis, the library is visited by about 500 students per day and about 500 books get circulated each day. The Library uses Green Stone Digital Library code as its digital library platform and it functions as an Institutional Repository. The Institution has well laid play grounds to an extent of 7.5 acres to cater to student's needs for outdoors games like Cricket, Football, Hockey and Volleyball. The ground also has a 400 meters long track with eight lanes for athletes. Separate facilities for Ball Badminton and Kabadi are also available in the campus. In addition, the Institution has a separate multipurpose hall to cater to the needs of indoor games like Table Tennis, Shuttlecock, Carom and Chess, with the user rate of about 760 students per day. The college also has a Multi Station Gym Equipment (Six Stations) with all standard accessories. In addition to the above, the Institution has separate hostels for boys and girls to accommodate 60 percentage of the total students studying in the campus. Fifteen college buses ply to various parts of the city to bring dayscholar students to the campus. The college has sufficient number of seminar halls and auditoriums to support the curricular, co curricular and extracurricular activities. Food courts and amenities centre with ATM, Xerox/printing/binding facilities, mobile service facilities, gift shops inside the campus caters to the requirement of students and faculty

Human Resource Management

The Institution attracts talent on regular basis as and when required. The recruitment and selection process adhere to the guidelines provided by the affiliated university and AICTE/UGC. Advertisements for faculty openings are published in leading newspapers to invite best talents across the Nation. Interviews are

conducted as per the procedure and the best talents are appointed. All newly recruited faculty members are deputed for orientation programme for a span of 1 week. Experienced senior faculty of the Institution handle the orientation sessions. The faculty members are encouraged to attend refresher courses and faculty development programmes and MOOC courses on latest topics. Targets for results, publications and R and D proposals are set at the beginning of the academic year and periodical faculty reviews are conducted to ensure the attainment of the targets. Student feedback obtained in the class committee meetings with regard to academic delivery of faculty in the classrooms is addressed and faculty members are strictly informed to carry out the required changes to meet the student expectations. A Centre for Professional development and training (CPDT) is established to provide technical training and soft skill development training for all faculty members. The Institution has also signed MoU with NITTTR, Chandigarh to train faculty in the upcoming technologies. Best faculty award, best researcher award and best publication award are provided for all performing faculty. Faculty members producing 100 percentage results are recognized every semester. Outstanding faculty members/students identified as star performers are honored during the event. Every year, incentives are provided for faculty members who contribute to academic excellence and Institution development

Industry Interaction / Collaboration

The Institution has engaged in collaborative discussions with leading Industries and has established premier Centres of Excellence (CoE) for collaborative Research and Development, training the students/faculty, offering industry projects and internships. The following Centres of Excellence are established in the Institution in association with industry. 1. Hire, Train and Deploy CoE with Aspire Systems 2. Full Stack Programming CoE by Virtusa Corp 3. CoE on External Research and Academic Alliance, Data Science and Big Data Analytics by Dell EMC Corp 4. ZOHO Inc Incubation Centre 5. Cloud Computing CoE by VMware Inc 6.

Big Data CoE by Cloud Bull Inc 7. Incubation Centre for Block Chain Technology by Intain Technology 8. VLSI CoE by Cadence Design Systems Inc 9. Building Information Modelling by Bentley Systems India Pvt. Ltd 10. Antenna Design CoE by ANSYS Inc 11. Automotive Design CoE by Siene Aerospace, Dubai 12. Materials Processing and Testing Lab funded by AICTE and DST 13. Pricol sponsored Automobile Lab 14. Robotics CoE by ABB Corp 15. CISCO CoE for Training and Development

Admission of Students

Admission of students is done through single window system as per Anna University norms. The Institution ensures wide publicity and transparency in the admission process through prospectus, college website and advertisements in all leading national and regional daily newspapers. The prospectus and application forms are uploaded in the College website. Prior to the results of higher secondary examinations, counseling centre inside the College helps the parents to enquire information about the range of courses, eligibility criteria and process of admission as well as academic support facilities. The College regularly participates in the educational fairs of various leading publications. The admission process adheres to the norms stipulated by the Government Order

Teaching and Learning

The Institution emphasis on world class teaching learning and evaluation practices to attain excellence. The college has replaced the 'chalk and talk' method with smart classrooms and interactive boards. Interactive smart boards/audio visuals in every classroom, flipped classroom model, google classrooms for each course are implemented. These facilities have improved the efficiency of teaching learning mechanism. Students are made to undergo variety of MOOC/Online courses in SWAYAM NPTEL, Coursera and Edx platforms every semester with credit transfer on to the academic record of the students. These technical courses undertaken by students and faculty have helped SKCET attain 26th in National level, 7th in Tamilnadu, 2nd in Coimbatore zone and 1st among

all engineering colleges in Coimbatore (Jan April 2019) in SWAYAM NPTEL Exam Rankings. Mandatory internships are part of the curriculum. Students are made to undergo internships mainly through Internshala portal (AICTE's potential partner) registration which help them to understand the industry practices and gain domain specific knowledge. This best internship culture at SKCET is honoured with a ranking of 22nd in National Level and 7th in South Zone in AICTE Internshala Ranking 2019. Eighth semester in all engineering programme curriculum is earmarked for internship to gain industry exposure

Curriculum Development

The curriculum and syllabi is framed with inputs from more than 200 reputed industries. This continuous improvement process in all departments has evolved into launch of 2 new Industry powered programmes: (i) B.Tech Computer Science and Business Systems (CSBS) program powered by Tata Consultancy Services (ii) M.Tech Computer Science and Engineering (5 years Integrated) programme powered by Virtusa Corporation. The continuous interaction with industry has helped to identify and introduce innovative, application oriented subjects in latest disruptive technologies such as Artificial Intelligence, Block Chain, Machine learning, Data Analytics and Internet of Things. The Choice Based Credit System (CBCS) has opened up avenues for interdisciplinary learning which helps students to acquire knowledge and skills in multiple domains

Examination and Evaluation

The controller of examination (CoE) office is in charge for the conduct of continuous internal assessment tests and the end semester examinations. The Controller of Examinations is assisted by Deputy Controllers and team heads. The Institution has a well established and adequately staffed CoE office. All the processes of the CoE office like the exam registration, fees payment, exam schedule preparation, hall ticket generation and result declaration are completely automated. The CoE office meticulously conducts internal and end semester examinations by ensuring the quality standards of the question paper with the Bloom's Taxonomy learning levels. All the question papers are set

based on bloom's taxonomy levels with greater emphasis on higher order thinking. Examinations are conducted under the supervision of the Controller of Examinations and Chief Superintendent. Central valuation is practiced by inviting experienced faculty from eminent colleges for evaluation and the evaluation is done at the CoE office. The results are declared after the approval of the Result Passing Board of the college. The Institution publishes all its results on the Institution's official website as soon as the results are declared. Students can view/access their results from the result portal. In order to avoid duplicity of grade sheets, printing of mark sheets has been made fool proof by printing the photograph of the student in the mark sheets Choice Based Credit System is introduced for both UG and PG programmes from the academic year 2015 2016 onwards. The students can earn extra credit points above the credits provided with curriculum by taking up certification courses offered by external agencies. Internal assessments are done through series of internal tests and based on performance of students in the capstone model of assessment for internal components, like assignments, quiz, case study, presentations, mini project and field work

Research and Development

The research imprint of SKCET scales to granted Research and Development funded projects to a tune of 6.62 Crores and submitted proposals with a total value of 49.46 Crores. Faculty members have published 66 patents and more than 1000 research papers in Web of Science, Scopus indexed and referred journals. Flair for Innovations and Creativity at Research Incubation Cell (RIC) has obtained the 'Top 100 League in ARIIA Ranking 2019' on indicators related to "Innovation and Entrepreneurship Development" amongst the students and faculty members. The Institution has obtained research and development grants from various Government agencies like DST, AICTE, UGC and TNSCST, in addition to private funding

6.2.2 – Implementation of e-governance in areas of operations:

E-governance area	Details
-------------------	---------

<p>Planning and Development</p>	<p>The Institution has an ERP software named Insproplus Palpap for the overall academic and administrative data collection, processing and analysis. The Institution provides individual email id for all faculty and students. All academic circulars and other important notices are sent to faculty members and students as emails through Google domain space. The academic calendar is prepared at the beginning of the academic year and the same is synced with Palpap for overall planning. A software named "Alma Connect" is being used to maintain the alumni data base and also used to communicate with them</p>
<p>Administration</p>	<p>To record and monitor faculty attendance and acquaintance maintenance, an ERP module named Palpap is being deployed. This module also maintains the repository of faculty information and attendance received through biometric entry. The same module is being deployed for Institution's hostel and transport administration, which contains details about the hostel staffs and students, room allotment and transport schedule</p>
<p>Finance and Accounts</p>	<p>The Institution's finance and accounts section uses an ERP software module developed inhouse for operating and managing its accounts. It contains details about all incomes and expenditures. The data can be processed and accounting statements can be generated any time</p>
<p>Student Admission and Support</p>	<p>To monitor and record student admission and progression, Palpap ERP software module is being deployed. This software maintains details about student information, attendance details, fees paid status, tutor details and other details pertaining to student's academic activities. Using this software it is also possible for the student to apply for bonafide certificate, transfer certificate and course completion certificate online</p>
<p>Examination</p>	<p>For effective conduct of examination EVALPRO, an ERP software module is being used. This software maintains a database of exam details, student details and generates statistics for the previously conducted examinations. It also generates the exam time table</p>

with schedule, hall plan and hall tickets for students

6.4 – Financial Management and Resource Mobilization

6.4.1 – Institution conducts internal and external financial audits regularly (with in 100 words each)

The Institution has qualified Chartered Accountants to oversee the financial transactions. They also carry out Internal audits and ensure that all the procedures and guidelines set by the management are strictly adhered while carrying out the transactions. Concurrent audits are conducted by the audit team of the institution and report is submitted to the Chartered Accountant appointed by the Management. Annual audit is conducted by the chartered accountant appointed by the Management and the report is submitted to the Chairperson and Managing Trustee for further action. Apart from the above, Sri Krishna Trust has External Auditors who submit their reports and observations highlighting the corrective measures that need to be taken if any to ensure proper compliance. The External Auditors' reports are reviewed by Management and forwarded to the respective accountants / Internal Auditors to bring in the desired improvements in the areas highlighted by the External Internal Auditors.

6.5 – Internal Quality Assurance System

6.5.1 – Whether Academic and Administrative Audit (AAA) has been done?

Audit Type	External		Internal	
	Yes/No	Agency	Yes/No	Authority
Academic	Yes	IQAC	Yes	IQAC
Administrative	Yes	IQAC	Yes	IQAC

6.5.2 – Activities and support from the Parent – Teacher Association (at least three)

Parents teachers meeting, named as Academic Review Meeting (ARM) is conducted twice a semester. Regular conduct of Parent Teacher meet facilitates interaction that enables in building rapport and cooperation between parents and teachers. During the meetings, feedback is obtained from the parents and the same is used for nurturing the students and improving their progress. Parents are asked to meet the tutors whenever the attendance of the student goes below the stipulated level. Parents are involved in certain academic decision making process like the curriculum and syllabus revision. Feedbacks are obtained from them through the program advisory committee meetings. Parents are also represented in the IQAC committee. They are invited for IQAC meetings to discuss about quality sustenance and other important initiatives of the

6.5.3 – Development programmes for support staff (at least three)

Training for support staff is imparted on regular basis. Some of the training imparted are: a) Skill development related to their core area. b) Computer literacy programs for using the computers and software packages. c) Non teaching staff members are encouraged to pursue higher education.

6.5.4 – Post Accreditation initiative(s) (mention at least three)

1. Revamping the Curriculum to suite the Industry Needs: The curriculum and syllabi is framed with input from more than 200 National and International benchmarks from academia and industry. This continuous improvement process in all departments has evolved into launch of 2 new Industry powered programs: • B.Tech Computer Science and Business Systems (CSBS) program powered by Tata Consultancy Services. • M.Tech Computer Science and Engineering (5 years Integrated) program powered by Virtusa Corporation. Innovative, application oriented and skill based papers in latest disruptive technologies such as Artificial Intelligence, Block Chain, Autonomous cars, 3D printing, Soft Robotics, Machine learning have been introduced in all disciplines. Every course is coupled with live and real time industry visit and demonstrations such as Automobile feature demo, visit to power plants, transformer manufacturing units, prefabricated structures, dams, hydraulic structures and Trade Exhibitions. 2. ICT based Teaching Methodology and Emphasis on MOOC/Online Courses: Interactive Smart boards with audio visual facilities are installed in all the 115 classrooms. Flipped Classroom Model is implemented and Google Classrooms are designed for each subject by the faculty in which the subject materials, periodic assignments and timeline based quizzes are posted. This aids student to learn at their own pace and convenience with a social networked learning niche. This is enabled through 115 Smart Classrooms with Interactive Boards and 24x7 Virtual Google Classrooms. Students are made to undergo variety of MOOC/Online Courses in SWAYAM NPTEL platform every semester with credit transfer on to the academic record of the students. These technical courses undertaken by students and faculty have helped SKCET attain 26th in National Level, 7th in Tamilnadu, 2nd in Coimbatore zone and 1st among all Engineering Colleges in Coimbatore in the April 2019 examinations. Students are trained to master extensive programming skills through open source [FOSS] softwares and applications which includes C, CPP , JAVA, JBA, Python, PHP and MySQL, LINUX, BASH, Scilab, LaTeX, Drupal, Perl, Neatbeans in the form of Audio Video content with self learning methodology. At SKCET, 19 events were conducted in which 1970 students were benefited during the year 2018 2019 and hence the college is bestowed with the Letter of Appreciation from IIT, Bombay for the excellence projected in spoken tutorial initiatives. 3. Outcome Based Pedagogy: Modified Bloom's Taxonomy and Capstone's model have been implemented to supplement the traditional lecture methods. This activity based learning which includes role play, projects, quiz and seminar presentations gives students more space for interaction. Question paper pattern reflecting Higher Order Thinking Skills have enabled students to develop their design thinking and creation skills unlike the primitive remembering level.

7.1.5 – Human Values and Professional Ethics

Title	Date of publication	Follow up(max 100 words)
Academic Calendar	15/05/2019	The academic calendar of

Sri Krishna College of Engineering and Technology is a rule book and planner published at the beginning of every academic year. It helps the faculty, students and parents to plan the activities for the academic year. The planner has all information about the working days, lab exam days, activity days, academic review meeting days with parents and holidays. The calendar also prescribes the guidelines of the Institution to all the students. Some of the guidelines specified are the basic rules and regulations of the Institution, hostel discipline, mess timings and fundamental practices such as wearing ID card inside the campus and dress code. It also specifies the information about various administrative in charges of the Institution and their contact details

7.1.7 – Initiatives taken by the institution to make the campus eco-friendly (at least five)

Sri Krishna College of Engineering and Technology is committed to itself from the inception in becoming a model green campus with regard to enhancing healthy living environment. The prime motto behind this scope is that on creating a green atmosphere, students can be healthy and learn efficaciously. 1. Solid Waste Management : SKCET currently composts hostel food waste and biological waste generated in the campus, which includes grass clippings, leaves and other landscaping related excesses. The system is able to digest large amounts of wastes over the course of 45 to 60 days. It uses bacteria to break down waste into a grey water effluent. Approximately 500 Kg of solid waste is being treated per month. 2. Liquid Waste Management: The Liquid waste generated from canteens/mess and toilets are treated at the Sewage Treatment Plant (STP) located inside the campus with a capacity of 450 KLD. An average output of 100 KLD recycled water is obtained from the STP and used for Gardening Purpose (per day). 3. Hazardous and E-Waste Management: The Hazardous Wastes like the batteries are disposed through certified vendors as per the AMC contract signed with them. E-Wastes like the old PCs and Printers are disposed through the buyback scheme. Other E-Wastes like CDs and Cables are disposed through certified vendors. 4. Rain Water Harvesting Structures and Utilization in the Campus: To provide an independent and free water supply, Rainwater Water Harvesting is being accumulated and stored at SKCET in three divergent ways: • Roof top rainwater harvesting • Percolation pits are made with perforated concrete slabs • Boreholes construction across channels in various places Roof top rainwater harvesting: Several rainwater harvesting pits are being constructed in the campus to raise the groundwater level which quells the water scarcity problems in our campus. Percolation pit with perforated concrete slabs: Percolation pits are being made with perforated concrete slabs, through which the rainwater flows through the underground tank where filtration takes place through Grating. Boreholes construction across channels in various places: Groundwater recharge has been increased by constructing boreholes in the campus with a depth of 100 feet. Around 45 charging bore holes are being constructed across the waterways to improve the groundwater recharge. 5. Mass Transport: Our college facilitates transportation for both students and staff members to reduce the individual's fuel consumption. 6. Paperless office: Our college encourages Ecommunications. Circulars, information, notes, invitation and reports are sent through electronic forms like email, whatsapp, video conferencing and facebook. 7. Solar powered applications: Green concept of using Solar Energy for equipment like water heaters in the hostels and Solar paneled lighting at the parking area are practiced.

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

1. Clean, Green Smart Campus: Sri Krishna College of Engineering and Technology provides a learning environment that is not just scenic but also eco friendly. An estate maintenance workforce is employed round the clock to ensure that the campus remains litter free and clean at all times of the day. Conscious of the need for energy conservation and judicious use of depletable resources, the Institution employs smart digital devices. 2. Incentives for Faculty Achievers: With the objective of encouraging the faculty fraternity, the Institution offers incentives to best performing faculty every year. This incentive is awarded to faculty who

- Actively contribute to Institution level and Department responsibilities.
- Go above and beyond to put in the extra effort to coordinate smooth functioning of the system.
- Exhibit promptness in completing assignments
- Accomplish innovative initiatives in the field of research
- Practice novel methods in classroom teaching.

3. Everyday enews Letter: SKCET BUZZ, the daily Campus News Letter provides high value information of the day to day activities of the college with a factual and timely visual presentation of all the events in an easily navigated eformat. This mobile friendly version is released at 5pm daily on all working days through Email and WhatsApp groups. 4. Flipped classrooms and Blended Learning: A combination of the flipped classroom model and Blended Learning is in place, to facilitate effective teachinglearning. Smart boards mounted in all classrooms have provided a better and superior way for the instructors to present and deliver their lectures. 5. Seed Money for Incubation: In an effort to promote research, the Institution offers seed money for faculty to develop products / solutions of innovation that would address socially relevant problems. The funding is sanctioned, after the proposed research work is presented before a panel of experts. Seed money sanctioned so far falls in the range of Rs. 50,000/ to Rs. 15,00,000/. 6. MOOC Courses: The faculty and students are motivated to take up online courses that add value to their regular curricular content. The Institution recommends online learning through reputed and elite online learning platforms including SWAYAM NPTEL, Coursera, edX and MIT OpenCourseWare. As part of their graduating programmes, the students learn and complete atleast one NPTEL (National Programme on Technology Enhanced Learning) course as a Mandatory Course. 7. Industry partnered programmes: In an effort to enhance the quality of engineering education and to enrich the students' employability skills portfolio, the Institution plans and accomplishes strategic linkages with the industries. Two industry linked programmes have been introduced, namely, an undergraduate programme in B. Tech. Computer Science and Business Systems(CSBS) in association with Tata Consultancy Services(TCS) and a 5years integrated postgraduate degree programme in M.Tech.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

“Innovation and Research” are the thrust areas of the college which can align with its vision and mission. The focus on “Innovation and Research” is evident from the following activities. 1. Organising Smart India Hackathon (SIH) for 3 consecutive years: Smart India Hackathon (SIH) is a 36 hours nonstop digital product building competition, during which student teams from all over India compete to offer innovative solutions to build smart applications that address

major real time problems of government departments and leading private industries, in tune with the Digital India Mission of our Honourable Prime Minister Shri. Narendra Modi. The college hosted Smart India Hackathon Software Version for three consecutive years, during 2017, 2018 and 2019. In the year 2019, SKCET partnered with Apollo Hospitals, India Health Link Pvt. Ltd, TVS Motors and Greefi Technologies for the hackathon and the 7 problem statements posed by these organizations were solved by 28 teams comprising of 200 students from across India.

2. Encouraging students to participate in Hackathons/Club Activities: Every department has pulsating participation in the activities of International Professional Clubs (SAE, IEEE, IIC) which encourages the students to participate in International and National Hackathons, Makeathons, Codeathons, SUPRA, BAJA, Solar Karts and Vehicle fabrication contests. All the students are guided to participate in SIH in order to improve their coding skills and face challenges to build innovation models. Ten teams were mentored for participating in the grand finale of SIH during the year 2019. Four mentored teams have won First prizes worth 3.75 Lakhs at SIH 2019 and Deloitte Innovation Award of 3 Lakhs and Persistent Systems Inspiration Award at SIH 2018.

3. Establishing MHRDs Institution Innovation Council (IIC): IIC of Sri Krishna College of Engineering and Technology was established to systematically foster the culture of Innovation among the students across various departments. The Ministry of Human Resource Development (MHRD), Govt. of India established Innovation Council at 750 Higher Education Institutions across the country and SKCET is one among the chosen ones. The focus of IIC is to encourage, inspire and nurture young students by supporting them to work with new ideas and transform them into prototypes.

4. Participating in Atal Ranking of Institution on Innovation Achievements (ARIIA): Ministry of Human Resource Development (MHRD) recognized SKCET as a prominent Innovation Hub by awarding top 100 Rank in Atal Ranking of Institutions on Innovation Achievements (ARIIA) 2019. SKCET is officially recognized with a Certificate of Appreciation by MHRD for its dynamic participation in the rankings which is exclusively awarded only to the top 100 rank holders.

5. Obtaining Research Funds: The research imprint of SKCET reached new peak by obtaining Research and Development funds to a tune of 6.62 Crores from various funding agencies like DST, UGC, AICTE etc. In addition, proposals to a total value of 49.46 Crores were submitted to various agencies. Faculty members have published 66 patents and in addition more than 1000 research papers were published in Web of Science, Scopus indexed and referred journals.

8.Future Plans of Actions for Next Academic Year

1. To obtain the highest grade of A plus plus in NAAC Cycle 2 Accreditation. 2.To improve the outreach activities in order to promote societal well being as part of the Institutional Social Responsibility (ISR). 3. To collaborate with leading Industries to establish Centres of Excellence in the state of the art technologies and introduce new programmes in niche technologies like Artificial Intelligence and Data Science. 4. To promote International academic interaction further. 5. To improve the NIRF and ARIIA ranking for the forthcoming academic year.
