About ATAL FDP

Main objective of ATAL Academy is to plan and help in imparting quality technical education in the country and to support technical institutions in fostering research, innovation and entrepreneurship through training in various emerging areas.

The FDP titled "Climatic Crisis and Mitigation by Sustainable Development of Energy and Environment Systems" is situated at the intersection of three critical and interrelated fields: energy, sustainability, and climate change. This convergence reflects the urgent need to address the climatic crisis through innovative, sustainable development strategies, particularly within the realms of energy production and environmental management.
