### SDG 9:INDUSTRY, INNOVATION AND INFRASTRUCTURE

Sustainable Development Goal (SDG) 9 focuses on **Industry, Innovation, and Infrastructure**. This goal highlights the importance of building resilient infrastructure, promoting inclusive and sustainable industrialization, and fostering innovation to support economic growth, improve living standards, and reduce inequalities. Here's a breakdown of its core components:

#### **POLICY FOR SDG 9:**

Through specialized centers that support innovation, entrepreneurship growth, and ecosystem enhancement, the institution acts as a hub for cooperation. These centers carry out a number of programs targeted at promoting the development and transfer of knowledge and technology, as well as raising awareness of intellectual property rights (IPR). The results of these initiatives demonstrate the Institution's dedication to promoting sustainable development via innovation and information sharing.

The institution has established an innovation ecosystem that includes an Entrepreneurship Development Cell (EDC) supported by the Department of Science and Technology (DST) and Management, a Research Incubation Cell (RIC), an Institution Innovation Council (IIC) Centre, and various other initiatives designed to foster and transfer knowledge to students and the wider community. Through focused awareness campaigns, workshops, seminars, and training programmes, the institution has succeeded in informing students, faculty and researchers about the importance of safeguarding intellectual property and utilizing it for innovation-driven growth. By providing expert guidance, undertaking patent searches, and facilitating the filing of patent applications, the IPR cell plays a key role in ensuring that intellectual property rights are effectively managed and exploited.

The IIC of the Institute encourages, inspires and nurtures young students by supporting them to realise their innovative ideas and transform them into prototypes. IIC of the Institution has acquired the 5<sup>th</sup> Golden Star during the year 2019-2020 and 4 Golden Stars for its outstanding performance during the years 2020-2021, 2021-2022 and 2022-2023. The Ministry of Education (MoE) recognized the Institution as a prominent Innovation Hub of the nation in Atal Ranking of Institutions on Innovation Achievements (ARIIA) 2019, 2020 and 2021. The Institution has secured 2<sup>nd</sup> Rank in ARIIA 2020 and 4<sup>th</sup> Rank in ARIIA 2021.

The Institution has a vibrant RIC which provides mentoring support, office space and testing facilities for start-ups allowing budding entrepreneurs to explore their creative ideas. RIC supports the entire innovation lifecycle - from ideation - prototype - product and establishing start-ups.

Active professional clubs like IEEE Chapter, Society of Automotive Engineers, Robotics Society etc., motivates the student's participation in technical/non-

technical contests, International/National Hackathons, Codeathons, Ideathons, Solar Karts and Vehicle fabrication contests. Dedicated mentorship enables the students to participate in various challenges hosted by Government and Private Agencies. 16 teams have won First prize worth 16 Lakhs at Smart India Hackathon (SIH) - Hardware/Software Edition held during the assessment year with a total winning of 145 teams in various contests. Entrepreneurial Inspire, e-week, Krishinnov are annual events which showcase the entrepreneurship spirit of the students.

Additionally, the Institution is working on translations of traditional knowledge in ancient agricultural practices, food habits, herbs/millets recipes and heritage of ancient temples of Coimbatore. Women Empowerment Cell offers short term programs in millet product preparation, herbal recipes, food fortification using herbs for the general public, including homemakers and self-help groups.

The IKS initiatives undertaken by the Institution foster a conducive ecosystem for innovation-driven growth and sustainable development.

### **ACTIONS PLANNED:**

- Promoting Sustainable Industrialization
- Encouraging Innovation and Research
- Investing in Resilient Infrastructure
- Fostering Inclusive and Sustainable Urban Infrastructure
- Facilitating Financial Access for Innovation and Industrial Growth
- Advancing Digital and ICT Infrastructure
- Encouraging Innovation and Research
- Supporting Clean and Renewable Energy
- Strengthening Capacity and Skills Development
- Monitoring and Reporting Progress
