SDG 17.4.1 highlights the need for improved policy coherence to support sustainable development by aligning economic, social, and environmental priorities. The ten selected events demonstrate this alignment through community participation, awareness initiatives, and collaborative action. By connecting local efforts with broader national and global development agendas, these activities promote an integrated approach to sustainability. Collectively, they help build a well-informed and proactive community capable of supporting coherent and effective development strategies.

Events Mapping to SDG 17.4.1 and Other SDGs
