## **REPORT ON WATER CONSERVATION DAY**

The Department of Computer Science and Business Systems, in association with the National Service Scheme (NSS), organized an outreach activity for the students of Government High School, Kuniyamuthur on 21.07.2023. The primary objective of this event was to raise awareness and promote the importance of water conservation among the school students.

The outreach activity took the form of an Art Competition, wherein the students were invited to showcase their artistic talents and creativity while expressing their thoughts and ideas about water conservation through their artwork. The topic of the Art Competition was specifically focused on "Water Conservation," aiming to highlight the pressing need for preserving this valuable natural resource.

The event garnered enthusiastic participation from the students of Government High School, Kuniyamuthur. They eagerly took part in the competition, demonstrating their passion for both art and environmental conservation. The young participants put forth their best efforts to create meaningful and thought-provoking artwork that conveyed the message of water conservation in various unique and imaginative ways.

After the Art Competition, a panel of judges carefully evaluated the submitted artworks based on creativity, originality, and relevance to the theme. The judging process was likely to have been fair and transparent, ensuring that the most deserving entries were recognized.

As a reward for their hard work and dedication, the winning teams were appreciated and celebrated during the award ceremony. The encouragement and motivation provided to the students were an essential aspect of this initiative, as it

reinforces the idea that their efforts in promoting social and environmental causes are recognized and valued.

**Outcome of the event:**

1. The students were advised to preserve water to create a healthy environment.
2. The importance of saving water is taught to the 34 participant students.

Cleaning up lakes and ponds is essential for preserving these vital water bodies. Regular maintenance, including the removal of debris, pollutants, and excess aquatic vegetation, not only improves their aesthetic appeal but also offers numerous advantages. Firstly, it ensures the availability of clean, safe water for various uses, such as drinking, recreation, and wildlife habitat. Secondly, lake and pond cleanup enhances water quality, reducing the risk of harmful algal blooms and maintaining balanced ecosystems. Moreover, it promotes tourism and outdoor activities, benefiting local economies and fostering community well-being. In an era of growing environmental concerns, the restoration of lakes and ponds is a necessary step toward sustaining the health and biodiversity of our ecosystems and ensuring a higher quality of life for future generations.

#### Outcome of the event:

1. As part of “International Coastal Cleanup Day” Department of ECE conducted “Cleaning of Water Bodies” on 24.09.2023 with our College Students.
2. An overwhelming response of over 30 aspiring and vibrant College Students participated and attended the event and got motivated towards the cleanliness of water bodies from the event
