Virtusa CoE – JAVA Full Stack

The Department of Computer Science and Engineering (CSE), Sri Krishna College of Engineering and Technology (SKCET), established a Centre of Excellence (CoE) in Java Full Stack Development in collaboration with Virtusa through a Memorandum of Understanding (MoU) signed on 22 March 2019. The initiative was established to bridge the gap between academia and industry by providing industry-oriented training, experiential learning, and practical exposure to emerging technologies. The CoE supports the M.Tech Computer Science and Engineering (Five-Year Integrated) programme, equipping students with the technical knowledge and professional skills required to become industry-ready IT professionals.

The CoE offers structured training in Software Engineering, Core Java, JDBC, SQL, HTML, CSS, JavaScript, React, Spring Boot, REST services, Hibernate, JPA, and software design patterns. The curriculum integrates theoretical learning with hands-on programming, application development, and project-based learning. Students gain practical exposure to full-stack application development, enabling them to understand and implement both front-end and back-end technologies.

The CoE has contributed to student employability through systematic training, technical assessments, and industry engagement. Faculty development is another key component of the CoE. Faculty members have participated in Virtusa's Train-the-Trainer programmes and technology orientation sessions on Java Full Stack Development, Design Patterns, Advanced Java, Angular, React, Spring Boot, Hibernate, and Maven. Faculty members have also undertaken hands-on projects reviewed by Virtusa experts, strengthening their technical expertise and enabling them to integrate industry practices into classroom teaching.

Aspire Systems Private Limited – CoE Lab

Aspire Systems aims to bridge the gap between academic learning and industry expectations through industry-oriented training, project-based learning, and experiential education. The initiative was designed to nurture industry-ready graduates with the technical knowledge and practical skills required to contribute effectively from Day 1 of their professional careers.

The collaboration was formalized through a Memorandum of Understanding (MoU) signed on 31 January 2020, focusing on a structured Hire–Train–Deploy model. Under this initiative, selected students are recruited during the seventh semester and undergo intensive training during their final semester. The Aspire Systems Talent Nurturing team, in coordination with the faculty SPOC, monitors student progress through regular reviews and daily stand-up meetings.

The CoE provides students with hands-on exposure to Core Java, Object-Oriented Programming, HTML, CSS, JavaScript, SQL, multithreading, exception handling, packages, interfaces, and application development. Faculty-led training, industry interactions, technical assessments, and project reviews enable students to strengthen their programming skills and apply theoretical concepts to practical scenarios.

The Centre has supported numerous student projects, including completed and ongoing software and product development initiatives. Regular assessments, industry mentoring, and technical feedback help students refine their application design, coding practices, and problem-solving capabilities.

IAMNEO Skill Development Centre

The IAMNEO Skill Development Centre develops students' programming and coding skills through hands-on training, project development, problem-solving practice and industry mentoring, preparing them to become industry-ready graduates.
